Print & Iron Fabric Sheet Instructions

Purple Chimp™ Print & Iron Sheets are 100% cotton sheets with a fusible backing that you print in your ink jet printer. These sheets can be used on almost any surface that can withstand the heat of an iron. For best results, read these instructions before creating your masterpiece.

Remember- Have an adult help with cutting and ironing.

GET READY . . .
MATERIALS NEEDED
• Cotton fabric sheets, included in your package
• Project surface to iron your picture on (surface cannot melt when it comes in contact with iron)
• Computer and color ink jet printer
• Household hand iron

GET SET . . .
CREATE YOUR PICTURE
• Log onto www.purplechimp.com. Click on the "CREATE YOUR DESIGN" button. The left side of the screen is your working area where you can combine clip art, photos and words to create your picture. The right side of the screen has buttons where you can find clip art and frames, type words, change fonts and colors and get photos that you have stored on your computer. Monkey around with it - it's fun!

Note: You may also create your picture on your computer using your own programs, clip art, photos, and text.

Need some inspiration?
Click on our "GALLERY OF IDEAS"

PRINT YOUR PICTURE
• Once you have completed your picture, click the "PRINT" button from the site in the middle of your screen. Your printer window will open.
• Place plain paper in your printer first, to make sure that you are happy with the results. Print your picture.
• When you like what you see, place one sheet of Print & Iron Cotton Fabric Sheet in your printer so that printing occurs on the fabric, not the shiny, fusible side of the sheet.
• Click the same "Print" button. Your printer window will open again.
• Set your printer to normal quality, plain paper setting. Do NOT reverse or "mirror image". Print picture.
• Allow ink to dry 30 minutes.
• Using a scissors, trim picture to desired shape.

PREPARE TO TRANSFER
• Preheat iron to highest, cotton setting.
• DO NOT USE STEAM. Empty any water that may be in iron and allow to preheat for five minutes.

GO!
TRANSFER TO PROJECT
• Position printed transfer FACE UP on project surface.
• Iron directly on the fabric sheet for 10 to 15 seconds, making sure all areas of the picture are completely fused.

If you would like a little extra help or have a question, click on our "VIDEO DEMONSTRATIONS" or "ASK THE EXPERT" for personalized assistance.

YOU DID IT! WEAR IT, SHOW IT, SHARE IT!

Click on the "SHARE YOUR PROJECT" button to see how you can share your masterpiece with other chimp artists. Or sign up to win chimp charms by clicking on the "WIN PRIZES" button. Make sure to check with an adult if it's ok.

WASHING INSTRUCTIONS
• Print & Iron Cotton Fabric Sheets must be ironed onto project before they can be washed.
• Wash by hand in cold water. If dirty, a small amount of liquid fabric softener can be added to water. Do not use detergent.
• Lay flat to dry.
• May be tumble dried on low heat setting.

STORAGE
Always store unused product in a flat, cool, dry place.

This product is intended for use in standard ink jet printers only. Do not use in other printers or copiers such as laser printers or any other printer/copier that applies heat as it may damage the machine. Test the product you plan to use to determine the suitability of the product for your equipment, methods and substrate material.
